

Mobile Phone and Electronic Device Use

Flying Start Pre-School

This policy refers to all electronic devices able to take pictures, record videos, send or receive calls and messages. This includes cameras, mobile telephones, tablets and any recording devices including smartwatches. More and more devices are technically capable of connecting us to the outside world. We will adapt the policy to include all devices we deem required to safeguard children.

(Fit bits: ones that receive calls and messages are not allowed but ones that only count steps are permitted on the nursery floor.)

Mobile phones and other devices that accept calls, messages and video calling.

At **Flying Start** we promote the safety and welfare of all children in our care. We believe our staff should be completely attentive during their hours of working to ensure all children in the nursery receive good quality care and education.

To ensure the safety and well-being of children we do not allow staff to use personal mobile phones, smartwatches and/or fitbits during working hours. We use a nursery mobile phone as our only means of contact, as we do not have a landline. We also use mobile phones on outings – as the Statutory Guidance lists in the Statutory Framework for the Early Years Foundation Stage states that providers should have contact telephone numbers and mobile phones on outings.

This policy should be used in conjunction with our online safety policy to ensure children are kept safe when using the nursery devices online

Staff must adhere to the following:

- Mobile phones/smartwatches/fitbits are either turned off or on silent and not accessed during your working hours
- Mobile phones/smartwatches/fitbits can only be used on a designated break and then this must be away from the children
- Mobile phones/smartwatches/fitbits should be stored safely in the kitchen in a designated tray
- The use of nursery devices, such as tablets, must only be used for nursery purposes
- The nursery devices will not have any social media or messaging apps on them
- Any apps downloaded onto nursery devices must be done only by management. This will ensure only age appropriate and safe apps will be accessible to staff or children using them
- Passwords / passcodes for nursery devices must not be shared or written down
- During outings, staff will use mobile phones belonging to the nursery wherever possible. Photographs must not be taken of the children on any personal phones or any other personal information storage device. Only nursery owned devices will be used to take photographs or film videos
- Nursery devices will not be taken home with staff and will remain secure at the setting when not in use. When the nursery mobile phone is taken home then the person

taking this device home must ensure it is securely stored and not accessed by another individual and returned to nursery the following day.

Parents' and visitors' use of mobile phones and smartwatches

Whilst we recognise that there may be emergency situations which necessitate the use of a mobile telephone, in order to ensure the safety and welfare of children in our care and share information about the child's day. However parents and visitors are kindly asked to refrain from using their mobile telephones whilst in the nursery or when collecting or dropping off their children.

If you are found to be using your phone inside the nursery premises you will be asked to finish the call or take the call outside.

We do this to ensure all children are safeguarded and the time for dropping off and picking up is a quality handover opportunity where we can share details about your child.

Visitors are requested to leave their mobile phones or smart watches in the safety of the kitchen.

Photographs and videos

At **Flying Start** we recognise that photographs and video recordings play a part in the life of the nursery. We ensure that any photographs or recordings taken of children in our nursery are only done with prior written permission from each child's parent and only share photos with parents in a secure manner. We obtain this when each child is registered.

We ask for individual permissions for photographs and video recordings for a range of purposes including: use in the child's learning journey; for display purposes; for promotion materials including our nursery website, brochure and the local press; and different social media platforms we use. We ensure that parents understand that where their child is also on another child's photograph, but not as the primary person, that may be used in another child's learning journey.

Staff are not permitted to take any photographs or recordings of a child on their own information storage devices e.g. cameras, mobiles, tablets or smartwatches and may only use those provided by the nursery. The nursery manager will monitor all photographs and recordings to ensure that the parents' wishes are met and children are safeguarded.

Photographs or videos recorded on nursery mobile devices will be transferred to the correct storage device to ensure no images are left on these mobile devices.

Parents are not permitted to use any recording device or camera (including those on mobile phones or smartwatches) on the nursery premises without the prior consent of the manager.

During special events, e.g. Christmas or leaving parties, staff may produce group photographs to distribute to parents on request. In this case we will gain individual permission for each child before the event. This will ensure all photographs taken are in line with parental choice. We ask that photos of events such as Christmas parties are not posted on any social media websites/areas without permission from parents of all the children included in the picture.

Online Learning Journals

At **Flying Start** we use tablets in the rooms to take photos of the children and record these directly on to their electronic learning journeys. We ensure that these devices are used for this purpose only and do not install applications such as social media or messaging sites on to these devices.

CCTV

The Scout group have CCTV recording outside the hut at the front and side of the building 24hrs a day. There is a sign up at the front gate to notify parents and they are informed in writing. The CCTV is for the purposes of crime prevention and theft with no audio. The system is in a locked room per ICO guidance and three people with an up-to-date DBS have access to the system which is password protected. The scouts are registered with the ICO.

If a parent is not happy about one or more of these uses, we will respect their wishes and find alternative ways of recording their child's play or learning.

We remind staff of the whistleblowing policy if they observe staff not following these safeguarding procedures.

Alexa

The Alexa in the preschool room has child safety settings enforced. Children are encouraged to ask the teachers before requesting music.
